Discussion details for OMB/OIRA Meeting

Friday December 3, 2015 @ 3pm

➤ Our Team

- **Amelia Rivera**- 36yrs old, former cigarette smoker for 20+ years (Owner)
- **Ismael Rivera Jr.**- 40yrs old, former cigarette smoker for 25+ years (Owner)
- **Chala Hall**- 24yrs old, former cigarette smoker for 5+ years (Manager)
- **Kerry Mega**- 19yrs old, former smokeless tobacco user for 4 years (Team Lead)
- **Shayla McChesney**- 20yrs old, never used tobacco products (Mixologist)
- **Anthony Golder**- 20yrs old, former cigarette smoker for 4+ years (Sales)
- **Amanda Vasquez**- 36yrs old, former cigarette smoker for 20+ years (Mixologist)
- **Colleen Marx**- 20yrs old, former cigarette smoker for 4+ years (Understudy/Sales)
- **Corey Dewalt**- 21yrs old, former cigar smoker for 3 years (Sales)
- **Karissa Rivera**- 16yrs old, never used tobacco products (Sales)

- Each one of our team members have personally witnessed or experienced 1st hand the successful transition from daily use of tobacco to personal vaporizers. Because of the industry demands they are employed, they are able to afford healthcare, purchase vehicles, homes, food & provide for their families. They have established relationships in the community. They vote. They donate to nonprofit organizations. They are coaches. They are parents. They are part time & full time college students. They are real. They are a team. They are individuals. They are customers. They are investors, organizers, role models, and citizens who would greatly struggle and their lives would be changed forever by the institution of strong deeming regulations proposed to go into effect.

➤ Wage and Benefits

- Sabor Vapors LLC has paid \$129,449 in wages & benefits - from 11/2014 to present

➤ Payroll Taxes

- Sabor Vapors LLC has paid \$12,375 in payroll taxes – from 11/2014 to present

 - ❖ High Seas Eliquid
 - ❖ Infamous Eliquid
 - ❖ Voluptuous Vapors
 - ❖ Black Hat Vapors
 - ❖ Snak Attack
 - ❖ Food Fighter Juice
 - I have included an "About Us" page from our website but I want to summarize it for you here today. My husband & I are entrepreneurs at heart. We have always had the dream of owning our own small business but struggled with which industry we would be successful in. After several failed attempts of independent sales consulting, learning through our own experience & college teachings about small & large business practices- we feel that we finally found our niche. We are passionate about family, about changing lives for the better, investing in nonprofit organizations & the future. We opened our small vape shop to share the success we have experienced through our transition to vaping and keep it affordable for our community. In June 2014 my husband Ismael was our only employee until October 2014. We were then able to hire our 1st employee due to the demand in the industry. Our 1st employee was our oldest daughter Chala who had also transitioned from smoking cigarettes to vaping. She resigned from her full time CNA position with benefits to work for us full time. Finally, in January 2015 I was able to leave my full time position in manufacturing management with benefits to focus on our business. To date we now have 8 total employees not including ourselves, 6 full time, and 2 part time. We are able to offer medical benefits and pay 50% of their premiums. Our business is successful. Our success has occurred in under two years. Most businesses do not see a profit in this short amount of time but we have. We believe our success has a great deal to do with the education we provide to our customers, the customer service we provide, the affordability of vaping products we offer, but mostly because of the success people experience with transitioning to vaping.

- Sales Taxes
 - Sabor Vapors LLC has collected \$47,784 in sales tax through 10/2015
- Domestic resale merchandise purchases
 - Sabor Vapors LLC has purchased \$67,789 in domestic resale merchandise through 10/2015
- Indirect goods and services purchases
 - Sabor Vapors LLC has purchased \$97,065 in indirect goods and service through 10/2015
- Domestic Equipment purchases
 - Sabor Vapors LLC has purchased \$10,328 in domestic equipment through 10/2015
- Insurance Cost
 - Sabor Vapors LLC has paid \$24,000 in insurance costs through 11/2015
- Our Customers / We are customers too
 - Testimonials from customers on Social Media
 - INCLUDED FOR REVIEW
 - Change.org petition to PA Gov. Tom Wolf signature & testimonials
 - INCLUDED FOR REVIEW
 - Ismael presenting facts & stats regarding in store traffic, average sale, approx. comparison through the entire state of PA & United States.
 - Our customers are local, statewide, countrywide, & international. We have both a store front & website making our products available for purchase around the world. Our customers are not only those who purchase our product directly but friends and family members who have learned what an impact vaping has had on them indirectly.

Customers choose to vape for several reasons:

- **The fact that there is no evidence vaping has caused any disease to date.**
Countless numbers of diseases have been proven to be directly related to smoking cigarettes.
- **Surveys confirm that several million smokers have quit smoking by switching to vaping, and several million more have sharply reduced their daily cigarette consumption.**
- **The affordable cost of vaping in comparison with the expense of using tobacco products.**

- Vaping is less offensive in regards to the smell and taste of tobacco products.
- Smokers have not experience similar success while trying to quit smoking with other available products on the market in regards to over the counter & prescription medications.
- We are customers too- We purchase products & supplies from over 70 different companies in the U.S. daily. We pay for services needed to run our business daily and we would not be in business if our customers didn't demand our product & service we are able to make available to them. Our customers travel near & far to purchase these products offered which in turn creates the cycle of inventory needs to supply once again. We have several needs from others to keep the business running which is including in costs to run a business: manpower, banking, accounting, design & advertising, office supplies, technological, security, transportation, cleaning, and utilities.

THANK YOU!

We are grateful for your time and for you giving us the opportunity to share the information we have provided today. We understand that regulations are needed in some degree with all things in today's day & time. We understand that the decisions made will not be easy for all involved in the industry. What we are most concerned with is the product being considered a tobacco product, with that classification although we have experienced success, our business would not exist for much longer. All of our employees would be forced to look for other work or be unemployed. They would lose their medical benefits we provide, they would lose what they have worked so hard to earn and believe greatly that the system does not work. They wouldn't believe that anything they believe in is worth fighting for along with our customers, those relationships would be broken. Our customers would then have to make a decision of going back to tobacco products that they have worked so hard to eliminate. They would purchase products from other countries, without a promise that it would be as safe & clean as ours are, and possible try to find ways to make & purchase products illegally. This would negatively result in the safety & long term cost of health & wealth of our future.

About Us

Our story starts over 20 years ago when we both started smoking at a young age, like many people, it was cool, our friends were doing it and we thought we really liked it, we were making an adult decision when we finally became old enough to buy our own...And it was the "norm".

Like many people we both strongly believed that we

could just quit smoking whenever we wanted to.

We thought that we could try quitting cold turkey when we were ready, we thought we could have self-control and quit without any problems.

We realized over the past 4 yrs. that this was not an option for us but we were both determined to continue to try to quit together and support each other with any available options: a strong support system, exercise, keeping ourselves busy at work and at home, chewing gum, a nicotine patch system, and medications available if we found out that the addiction, the want, need and desire was stronger than we thought.

We enjoy the social aspect, the mental breaks at work and home and came to the conclusion that it was not an easy habit to quit. We needed the hand mouth fetish, the nicotine, and the one vice that we found enjoyment from on a daily basis.

What we didn't like was the smell, the taste, and the change in how it was no longer socially acceptable and became more inconvenient and inconvenienced those around us. We had to hide our filthy habit, try soaps lotions, mints, and air fresheners

to cover it up from not only friends & family but convince ourselves that we & our surroundings didn't smell like cigarette.

We understand it is harmful to our health, and were exposing our friends, family, coworkers and even complete strangers to our poor choices. When you smoke you understand the health risks, and although it's not that you don't care, it's just that we find a way to defend our choice, it's our choice!

We were introduced to the cigarette looking electronic cigarette 4 years ago at the beginning our quest to quit. We tried and were not satisfied with what was the "new". It made us sick in the stomach, gave use sore throats, and limited your use after so many puffs. It was frustrating lead us back to just going to buy a pack...Even after investing a couple hundred dollars twice, we didn't stick with it.

So you may be thinking why now... what's so different this time and how do we know that we won't go back to our old ways???

That's fair!

When we first learned about this option we were again smoking and weren't looking for another option. We were again content that the previous options didn't work and nothing else would replace the "real thing". We learned about this alternative of an electronic vaporizer through our oldest daughter and her fiancé who explained how this was the "new thing" and still we weren't interested in trying to quit again. We did some research and Ismael was sold, a week later he was walking around puffing on this thing and insisted on me trying it for myself. He used it on and off for a couple of months while he weened himself from cigarettes and was convinced it would work for the both of us. I wasn't sold and still wasn't ready.

Then it happened...the time came where I ran out of cigarettes, would've had to run out late at night to buy more and I submitted, I needed my "fix", I figured it's worth a shot, what could it hurt and guess what ... I was sold...it worked! I have honestly never looked back. We used it every day, tried new flavors after the taste of tobacco was no longer appealing to us...

I can only try to explain what a difference this has made in our lives,

It really worked!

We knew at that point we had to share this product with everyone we know, and do everything to make it an available alternative for others.

We won't be pushy, tell lies, or pray on the last dollar to your name for our financial benefit. You have to want it. It's not a miracle. It still takes self-control and patience. It's worth a shot, and it's enjoyable in so many more ways than any pack of cigarettes and its way less expensive!

We want to be an inspiration to others.

FirstEnergy Stadium Officially Unveils Vape Lounge Presented by Sabor Vapors

6/16/2015 12:42 PM ET

Reading Fightin Phils

While smoking has been prohibited inside FirstEnergy Stadium for several years, as per a City of Reading Ordinance, the Reading Fightin Phils have always felt it was important to provide smokers with a comfortable area to smoke. Because of this, the Fightins have had a comfortable smoking area outside the stadium for several years.

Recently, as vaporizers have become popular across the country, stadiums, including America's Classic Ballpark, have tried to accommodate fans who enjoy vaporizers while respecting their need to not inhale tobacco smoke found in a smoking area.

Beginning with the current 2015 season, the Fightins have created the Vape Lounge presented by Sabor Vapors. The area, which has become a comfortable gathering spot for fans that enjoy vaping during games, is located near the previously existing smoking area, which is also sponsored by Sabor Vapors. The Vape Lounge is separate from the current smoking area and allows those in the lounge to avoid secondhand smoke. Throughout the season, the area will evolve as it has already added blue decorative lighting and plans to add Adirondack chairs.

The Vape Lounge presented by Sabor Vapors area is believed to be the first area in any baseball stadium specifically designated for fans to use vaporizers.

"The Vape Lounge presented by Sabor Vapors has been very successful since being installed prior to the start of the season," said Fightins General Manager Scott Hunsicker. "It is often full of Fightins fans enjoying a break and meeting each other over a shared enjoyment of vaporizers. We look forward to a continued partnership with Sabor Vapors and hope to add some specific events for vaping in the near future."

Sabor Vapors sponsorship of the previously existing smoking area also includes signage encouraging those that smoke nicotine cigarettes to quit smoking cigarettes and consider Sabor Vapors as an alternative.

"We are a tight family with busy lives like most in today's world and we have always enjoyed the special moments we share at First Energy Stadium. It has been a dream come true to build a personal & business relationship with the Fightins," said Amelia Rivera, owner of Sabor Vapors. "We are so very grateful for their support and understanding of the ever-changing times of the community around them to include us in this opportunity and to develop the oasis getaway of the first and only vape lounge in ballparks. We want to help inform, educate, and support those that struggle with the cigarette addiction and hope to build similar relationships with the Fightins fans while we are at the ballpark or store."

On Saturday, June 20th, representatives from Sabor Vapors will be at a table in FirstEnergy Stadium selling vaporizer kits, e-juice, and exclusive flavors just for Fightins fans.

Located in Hamburg, Sabor Vapors provides an alternative to smoking in a flavorful, fun, and socially acceptable way through the sales of vaporizers, flavored e-juice, and more. Sabor Vapors storefront also features a newly-designed vapor lounge feature comfy leather seating. For more information, you can go to SaborVapors.com.

Tickets for the 2015 season at FirstEnergy Stadium are available by visiting Fightins.com, calling the Fightin Phils Ticket Office at 610-370-BALL, or by visiting the Fightin Phils Ticket Office in person at FirstEnergy Stadium. Follow the Fightin Phils on Twitter at @ReadingFightins and like them on Facebook via Facebook.com/Fightins.

Who Is High Seas?

High Seas E Liquid Trading Company is a premium US made e-juice line supplying only max vg flavors. The highly skilled team of mixologists of these beautifully crafted e-liquids are dedicated to raising the bar and providing an e-juice experience that will please both novice and expert vapers alike. Our inspiration comes from collecting countless e-liquids over the years that we could not vape and felt we could elevate crafting e-juice to an art form. Based in Maryland, High Seas E Liquid Trading Company e-juices use only the best ingredients, and they give complex flavor that will leave you wanting more.

Jennifer Brock I went into Sabor Vapor for the 1st time the night of the King Frost Parade. I was excited i really liked the shop. Everyone was friendly and Pleasant and i wanted to switch from cigarettes .So on 1/30/2015 i went in and got my 1st kit. I was very happy and it has been 2 weeks today that i have not had a cigarette. Thank You Sabor Vapor for helping me make the change .

October 26, 2014 14

4 weeks cigarette free today! I 100% could not have done it without my Sabor Vapor ecig!! I have no desire to ever touch a cigarette again, whenever I'm having an urge or a craving, vaping takes it away , which nothing I've ever tried has before

The greatest payoffs . Though re are soooo many is my overall health noticeable improving . cough went away, I can breath easier etc. and my sense of smell. It is amazing how at the end of the day I STILL smell my shampoo on my hair and perfume on my clothes.. Honestly it's the little things that make me realize what a great choice I made.. It's fantastic! There are so many awesome benefits in switching from cigarettes to vaping and I couldn't be happier that I did 😊

Tara Renee' Livinghouse reviewed Sabor Vapors — 6★

January 23, 2014 14

I am 1 week cigarette free today!! I know it isn't long but I'm so happy and proud of myself! This has been a difficult process and I couldn't have done it without your help. I plan on continuing to count the days!!! 😊

Lori Yoder reviewed Sabor Vapors — 5★

January 23, 2014 14

The best thing out there ... I tried many ecigs and nothing worked , Havent bought any since dec 22 2013..Thank you couldnt of done it without Sabor Vapor e cig!!!

August 9, 2014 14

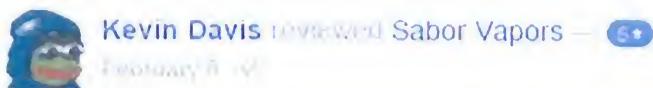

Awesome customer service when i had a question or issue they were both very patient with my boyfriend and i Tons of flavors have me hooked on the monster flavor and i let everyone know i finally quit smoking for 2months. Keep up the great work! Definitely reccomend this shop to anyone and everyone

I had reservations about the whole vaping thing. The people at Sabor set me straight and I've been smoke free for over a month and have no desire to smoke again.

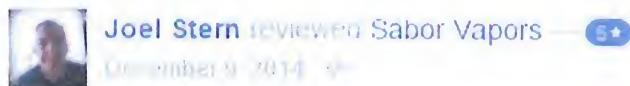

I have quit smoking 2 years this summer because of Sabor Vapor. Thank you you saved my life!

Great place to kick the tobacco for good, great prices, great products, and great people. So glad i did the switch.

Love the store gives you all the information you need thanks for keeping me smoke free for a month now

It's officially been one week since I lit up a cigarette. I bought an xfire about 3 weeks ago from you guys and the first 2 weeks it was a little tough not lighting up a cigarette but after about 2 weeks my friend who bought one with me and quit cigarettes as soon as he started vaping told me how much I smelled when I came in from smoking a cigarette so I made the choice to just not buy any more cigarettes, although I've been vaping a lot more lol. I never thought I'd be able to give those nasty things up, but thanks to you I'm a week cigarette free, even the smell of them turns me off. Thanks again and I'll be seeing you again soon for more of my vaping needs.

Soooo glad my son has gotten my husband to start "vaping"..... Why????? Because he has been cigarette free for six days!!!! Thanks Sapor Vapor for tailoring the oils to my husbands needs.

February 18

This vape shop is awesome! All the employees there knew exactly what they were talking about, and were a pleasure to talk to. I came to PA for Cabela's and wanted to make a quick stop to check it out. My friends and I ended up spending upwards of \$300+ on complete new setups and e juices. The selection they have is unparalleled in my opinion, and some of the flavors were absolutely insane (try monkey farts, you won't regret it). Next time I go to PA this will be a necessary stop!

JØseph Vøllers reviewed Sabor Vapors —

January 10

Fantastic store. Me and some friends came out to Hamburg for a Cabelas run, and this place was meant to be a quick stop on the way. Needless to say, we spent around \$300 here, and a solid hour in the store. Staff is fantastic and very customer service oriented. Next time we come to PA, Sabor will be a stop to look forward to every single time. I am more than happy to give my business to such a fantastic place. Keep it up guys, you're doing great.

June 10

I started out on a vape pen . didn't work I went back and fourth to cigs, and vaping for about 3 month. I finally got tired of buying cigs. Went back in tried a bunch of different ones again and tried a new vape. I brought a 50v Eleaf iStick. Work's great best thing I ever tried. I don't even want a cig. I want to thank the Staff for helping me out and finding the right product for me. It took me about a hour and tried alot of different kinds. They have alot of patients and they don't try to sell you junk and try and push you out the door quick, they work with you and don't rush you. Best place to go . I'll be going back alot I love the way the staff works with you and don't rush you out the door. THANKS STAFF. I Have been 2 days with out a cig. I know its not long but the first time I tried it I would be vapping and smoking in the same day. Not no more just vapping thanks to my new vapor and the staff. THANKS again...

June 12

Some people say I must spend a lot on vape stuff. I say not really I spent about 13 bucks a day on cigarettes. So 50 a week but nothing to show for it but black lungs and an empty pack of cigarettes. At least I have something to show for the money spent on vape stuff a nice collection of stuff to vape on

Anita Ling Vanzile

Reduce tax proposal on electronic cigarettes & vaping supplies.

Sabor Vapors

180
Supporters

As former smokers

and current owners of Sabor Vapors, Berks County's 1st brick & mortar vape shop we are asking for you to reconsider the proposed taxes on electronic cigarettes & vaping supplies. We want you to know that we have personally witnessed the success of HUNDREDS of long time smokers and users of chewing tobacco quit using tobacco products, adopt a healthier lifestyle & save money for their families and their futures. When we opened our business over 2 yrs ago it was because of our own personal success with these products. We were addicted to smoking cigarettes for over 25 years, we tried alternatives over the years to try to quit smoking which included: over the counter & prescription medications- nicorette patches, gum, Chantix (twice), cold turkey, changing habits (including people, places & things,) & Wellbutrin. With all options previously available on the market we were unable to kick the habit until we were introduced to vaping. HUNDREDS of users of vaping products are healthier, happier, and are proof of the products

success & ability to assist smokers with quitting smoking. Our customers range from 18 to 70+ yrs old. The reason we started our business is to help people, to make sure that the products were available in our local area, and keep the products AFFORDABLE & to help people have the same success we had. I am a U.S. Marine Veteran, served for MCAGCC Headquarter Battalion, Military Police Officer & DARE Officer, honorably discharged. My husband & I are members of the Berks County Democratic Committee, we are Chairman & Chairwoman for Windsor Township. We are both born & raised in Pennsylvania and graduates of Reading Area Community College where we majored in Business. We met you Tom Wolf at our Spring Fling over two years ago before you officially began your campaign and never questioned our support for you to run for office as State Governor. We both assisted in petitioning for you to represent our state and fight for the peoples best interest. We completely understand & support that there has to be laws and regulations put into place by government. We support regulation and encourage it. In fact, no one under the age of 18 is allowed inside our store, we do not sell our products to people under the age of 18 & we do not encourage the use of vaping products to anyone under the age of 18. We personally have a 15 year old daughter who helps at the store part time but does not take part in taste testing/use or purchase of the products we sell. Our business is family owned & operated. We have not begged, borrowed, or stolen to get our doors open. We do not sell, support or use dry herb vaporizers. We are honest, hardworking, fair, ethical individuals. We opened our store front in Hamburg in June 2014. Hamburg is our hometown, its where we live and invest in our community. Our business has grown faster than we thought it would because of the success in use of the products we sell and have discussed plans of opening a 2nd store in the Wyomissing area. We currently have 1 full-time employee & 4

part-time employees, opening another location would create more jobs in this area. We didn't start our company to get rich quick, because there is no such thing. We started it to help people, change lives, and provide an alternative to help people quit smoking cigarettes. We pay taxes, sales taxes, employment taxes, property taxes & participate in the Affordable Care Act insurance opportunities. Our business is insured and we give back to the community that supports us. We donate to several non profit organizations, American Red Cross, Salvation Army, Wounded Warriors & Multiple Schlerosis Society are just a few to name. In closing...There is a lot of information available on vaping and vaping supplies from both points of view and much like considering which politician to support during a campaign, WE encourage YOU to do research, educate & communicate with the community before casting your ballot and throwing down the gavel that will not only change our lives but the lives of hundreds of other Pennsylvanians. We ask NOT that you eliminate a tax but that you fair tax, allow opportunity, and make change for a better tomorrow not for one but for all.

I am signing because this bill only encourages people to go back to smoking which years of research has proved is disastrous to your health.

As an ex smoker of 39 years, and thanks to vaping I have a much better quality of life, a decision like this can effect other states and avoid helping thousands of smoker to make the transition and stop smoking

I smoked traditional cigarettes for 15 years 1 pack a day. I have been cigarette free since February 2013 thanks to my personal vaporizer. I believe vaping has the potential to save many lives. Vaping not only eases quitting traditional cigarettes but also gives the opportunity to decrease your nicotine a little at a time. I started to vape with 18mg nicotine and I now vape 3mg and 0mg. Vaping should not even be classified as electronic cigarettes but instead should be classified as a personal vaporizer putting traditional cigarettes and vaping completely apart because they are 2 completely different things.

I'm signing because I have been vaping for 2 years now and have been 100% tobacco free for those two years. By imposing this tobacco tax on vaping products will harm those who seek to use it. Vapor products are not a tobacco product and if they are taxed it will hurt those financially who use the products as a healthier alternative to smoking. Think of all the lives electronic cigarettes/vapor products have saved. How the thousands of Pennsylvanians stopped using tobacco and have improved their health. This tax will not only harm the livelihood of Pennsylvanians but also their health.

I vape and can barely afford it now with 3 kids. It keeps me from smoking and I'm able to spend time running and playing with my kids without having to stop and catch my breath. I want to be alive to watch my kids grow up and vaping and ejuice has helped me to quit smokeing.

I am signing not only because of my success with quitting smoking cigarettes, but because the owners of sabor vapors aren't like others just trying to make a buck. They truly have a passion for people and they treat you like family. I support vaping and more importantly I support them!

I use electronic cigarettes and I believe having a commodity that is healthy and safe for people who want to quite smoking should not be required to have a tax other then sales tax. This is not a tobacco product and there for should be excluded from any taxation. Stop raising and adding taxes to fill our congressmens pockets. All you have to do is drive one mile in Pa and realize that money from the tax payers is not being used to its full potential...so I say no; no more taxing people who want to live a full and healthy life

I am one of the lucky former smokers who found sabor vapors and was finally able to stop smoking. Over six months have passed and I feel better, smell better, and breathe better since switching. Please make the effort to research and inform yourself before striking a blow to the only thing that has enabled myself and so many others to eliminate cigarettes from our lives. Thank you.

I was a smoker for 12 years. I began to vape in June of 2013 I have been completely cigarette free since September 2013. I completely agree with you Amelia. 40 percent is to high and would discourage alot of people from vaping.

I am signing this petition because I smoked for just about 13 yrs. I tried most of what was available to me to help kick the habit but to no avail. In January of 2014, I met Amelia and Ismael at an event where their products were on display. I won a raffle, which was a vaping starter kit, and 3 days later I was on my way to a cigarette free life. I am happy to say I have not picked up a cigarette since the beginning of February 2014 and have not felt better. I have more energy. I have more money in my pocket. The Rivera's are amazing people who are trying to help people help themselves. Please be a fair governor Mr Wolf.

I have quit smoking cigarettes almost a year ago. Vaping has been the only thing that has worked for me. Taxing these products at that rate is ludicrous and unfair to businesses and the consumer! Categorizing vaping products as "tobacco" products is just another way for the government to tax the American consumer to death, and not be able to afford a potentially life saving product!

Please educate yourself on the benefits of vaping, don't fall prey to all the misinformation out there.

I am a Military and Desert Shield/Desert Storm veteran. As a man who has fought for what this country believed in, I am ashamed at what this government is becoming! Please vote against such ridiculous taxes on vaping products.

[Thank you.](#)

I am signing this petition to help people see how vaping can change there lives. It's a great feeling to know that you can accomplish even the most what seems like unaccomplishable task it's not easy by all means to just quit smoking but i do feel a lot better since I did I am so glad that I was introduced to vaping so I say help sabor vapor out!!
